04

Achieve

Our Hill Avenue Learning Behaviours...

...will enable our children to develop the skills and traits that will allow them to strive, aspire and succeed in all walks of life.

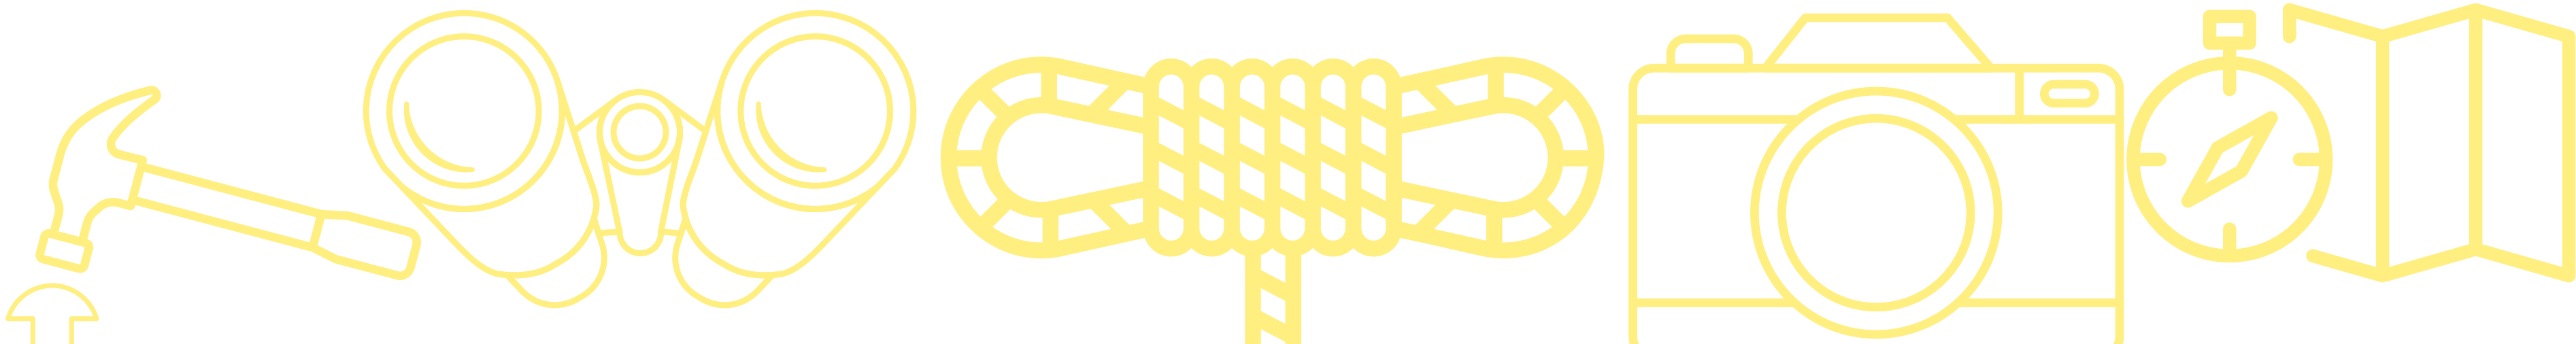

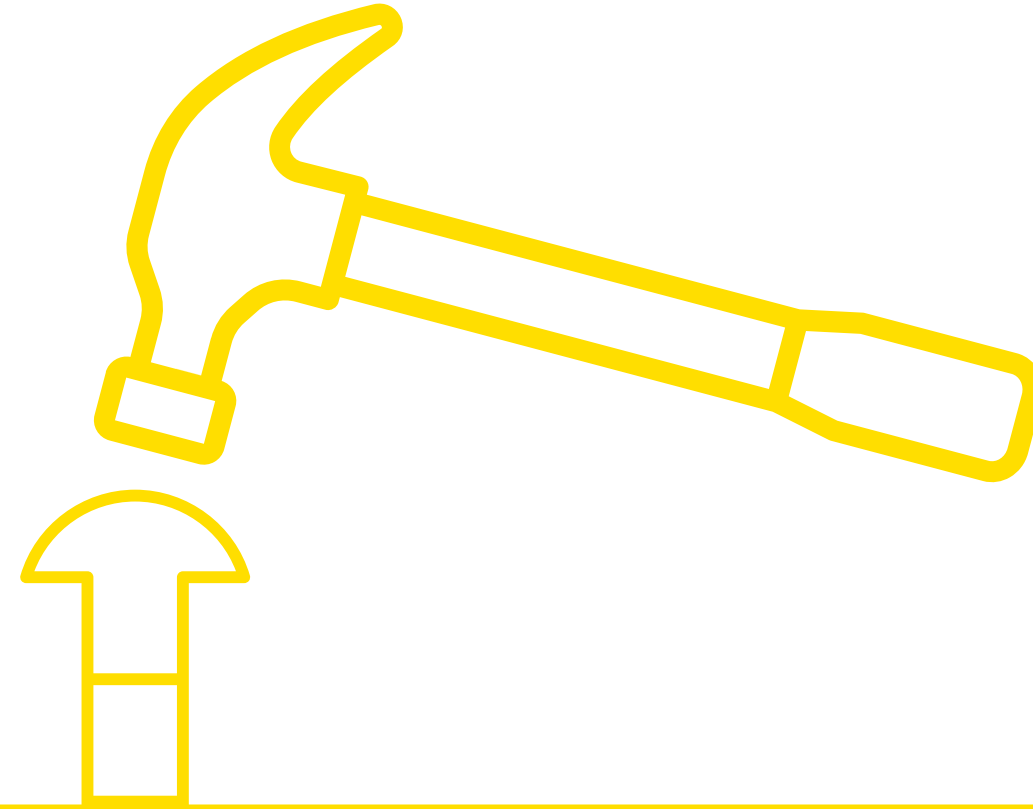

Our Hill Avenue Learning Behaviours are important because:

- They draw attention to the processes of learning.
- They are positive dispositions and habits for learning.
- Our children are more likely to engage rather than be passive.
- They will help develop deeper understanding.
- They provide a range of criteria against which our children can evaluate their progress and their effort in their learning.

Our Hill Avenue Learning Behaviour Designs

RESILIENCE
